

# COBRA Pricebook Center

“Everyone in our company – estimators, purchasers, billing and inventory people all work from the same Pricebook. We’re finally able to get everyone working together in one program. We particularly like the automatic price updating feature that links with our local suppliers. Not only is it 99% faster than our old way of manually price updating, we’re finally able to trust our prices and not have to constantly play phone tag with our vendors. I like the 10-way look-up search because it gives me choices on how I want to find items. Dick. F. Electrical Contractor in Minnesota

Local Vendor Linking for automated Price Updating.

The screenshot displays the COBRA Pricebook Center software interface. At the top, the title bar reads "Cobra for Windows 8.9.667 - [COBRA Contracting Company, Inc.] - [Pricebook Center]". Below the title bar is a menu bar with options: File, Edit, Reports, Inventory, Kits, FlatRate, Options, View, Updates, Go To..., Utilities, Help. A toolbar contains icons for New, Find, Save, Del, First, Prev, Next, Last, Picture, 5161, 5163, Help, and Exit. The main window is divided into two panes. The left pane, titled "Pricebook Item", shows fields for Item # (10), Description (1/2" EMT), Note, Product Group (0010), Recall Name (EMT), Material Class (1E), Bin Location (EA), and Picture File. The right pane, titled "Vendor / Update Service Settings", shows fields for Vendor ID (BS), Vendor Part (EMT1/2), Vendor Model, Trade Number (167236), Link Number (10), Cost Disc % (.0000), Est-Cost Disc % (.0000), and Last Update (01/18/2008). Below the panes is a horizontal tab bar with the following tabs: General, Costs, Price Codes, Bar Code, Link Items, Item Kits, Update Options, Inventory, Price History, Item Usage, and Purchase Orders. The main area below the tabs is divided into three sections, each with a green border and a title: "Billing Info", "Estimating Info", and "Inventory Info". The "Billing Info" section contains fields for Billing Cost (.2000), UOM (E), Regular Markup % (.800000), and Regular Price (.36). The "Estimating Info" section contains fields for Labor Unit (.0400) and Estimating Cost (.1750). The "Inventory Info" section contains fields for Reorder Level (100), Reorder Quantity (100), and On-Hand Quantity (259). Below each of these three sections is a green-bordered box with text: "Billing Cost and Price", "Estimators & Purchasers Pricing", and "Inventory Control, when needed." respectively. At the bottom of the window, the status bar shows "COBRA Date: 05/22/2009", "05/22/2009", and "12:41 PM".

File Tabs give you access to additional information about a Material Item.

Use these to negotiate your best price, know how much is on order, see how much is on-hand in your inventories, print bar code labels for remote processing, track serial and model numbers on installed equipment ...and much more!
